

Carmelo (Carlo) Sferrazza

Email: csferrazza@ethz.ch

Website: <https://sferrazza.cc>

Education

- 2017- **Ph.D. Candidate, ETH Zurich, Switzerland**
Institute for Dynamic Systems and Control.
Specialized in data-driven, vision-based tactile sensing.
Advisor: Prof. Raffaello D'Andrea.
Thesis committee members: Prof. Ken Goldberg, Prof. Katherine Kuchenbecker.
- 2014-2016 **M.Sc., ETH Zurich, Switzerland**
Robotics, Systems and Control. Awarded with distinction.
Thesis title: "Parametrized Model Predictive Control on the Flying Platform: Trajectory Tracking and Full Constraint Satisfaction."
- 2012-2013 **B.Eng., Tongji University, China**
Electronics and Information Engineering. Double degree program.
Thesis title: "Single Shooting as a Trajectory Optimization Method for Quadcopters."
- 2011-2014 **B.Sc., Politecnico di Milano, Italy**
Automation Engineering. Final grade: 110/110 with honors.

Awards and Honors

- 2021 **Best Poster Award.**
At the IEEE ICRA Workshop on "Bridging the Gap between Data-driven and Analytical Physics-based Grasping and Manipulation."
For the workshop paper "Tactile swing-up: A testbed for tactile-enabled learning, estimation and control [W1]."
- 2021 **ETH representative to the Global Young Scientists Summit (GYSS)**
The GYSS is a multi-disciplinary gathering of young scientists and researchers from all over the world, with eminent speakers who are recipients of the Nobel Prize, Fields Medal, Millennium Technology Prize, and Turing Award.
- 2020 **Best Paper Award**
At the IEEE International Conference on Soft Robotics (RoboSoft).
For the paper "Towards vision-based robotic skins: a data-driven, multi-camera tactile sensor [C3]."
- 2017 **ETEL Master Award**
For the best Master's thesis in mechatronics at the ETH Zurich Department of Mechanical and Process Engineering and the Department of Information Technology and Electrical Engineering.

- 2013 **Prize for “The Best Freshmen Students”**
 Conferred on the basis of academic achievements in the first year of all Bachelor degrees at Politecnico di Milano.
- 2012 **Politong Scholarship**
 To take part in a double degree program between Politecnico di Milano and Tongji University.

Publications

Journal Articles

Online Articles and Blog Posts

- [O1] C. Serrazza, “Robots that feel by seeing,” *Robohub*, 2021.
- [O2] C. Serrazza, “The significance of (online) public talks,” *ETH Ambassadors*, 2020.

Invited Talks and Demonstrations

- 2021 **University of Toronto, Canada**
Academic talk. “Data-driven, vision-based tactile sensing: design, simulation, and applications to robot control.” Hosted by Prof. Angela Schoellig and the Robotics Institute.
- 2021 **UC Berkeley, USA**
Academic talk. “Data-driven, vision-based tactile sensing: design, simulation, and applications to robot control.” Hosted by Prof. Ken Goldberg.

- 2021 **UCLA, USA**
Academic talk. "Data-driven, vision-based tactile sensing: design, simulation, and applications to robot control." Hosted by Prof. Robert M'Closkey and the Department of Mechanical and Aerospace Engineering.
- 2021 **RWTH Aachen University, Germany**
Academic talk. "Data-driven, vision-based tactile sensing: design, simulation, and applications to robot control." Hosted by Prof. Sebastian Trimpe.
- 2020 **TEDxZurich, Zurich, Switzerland**
Presenter. "Robots that feel by seeing." Talk viewed by 42,000 people (May 2021).
- 2020 **Swiss Science Center Technorama, Winterthur, Switzerland**
Demonstration. "Robotic skin." Technorama is the premier science center in Switzerland and one of the largest in Europe.
- 2020 **Autonomy Talks, ETH Zurich, Switzerland**
Academic talk. "Optical touch: From tactile images to contact force distributions."
- 2019 **WORLD.MINDS Annual Symposium, Zurich, Switzerland**
Presenter. "Optical Touch." WORLD.MINDS is a community of 1,000 individuals who have made proven contributions in science, the arts, business and government.
- 2019 **House of Electronic Arts, Basel, Switzerland**
Presenter. "AI in robotics for tactile skins."
- 2019 **World Economic Forum, Davos, Switzerland**
Demonstration. "The Cubli cube can move by itself."

Teaching Experience

- 2018- **Recursive Estimation, ETH Zurich, Switzerland**
Teaching assistant (one of two). Graduate course, approx. 300 students. Teaching weekly recitation classes, serving as occasional substitute lecturer, developing problem sets, programming exercises and exams, grading, offering student office hours, maintaining the class website, recruiting and supervising junior TAs. Lecturer: Prof. Raffaello D'Andrea.
- 2015-2016 **Linear System Theory, ETH Zurich, Switzerland**
Reader. Graduate course. Grading homework and midterm exams. Lecturers: Prof. John Lygeros, Prof. Maryam Kamgarpour.

Student Supervision

Directly supervising B.Sc. and M.Sc. students at ETH, with the professor occasionally consulted. Responsibilities included student recruitment, the definition of appropriate student projects, research progress meetings, introduction to hardware testbeds, evaluation, and support in writing papers and preparing presentations.

M.Sc. Thesis (six-month, full-time research project)

- [M1] Thomas Bi, “Learning Aggressive Tactile Swing-Up Maneuvers,” *ETH Zurich*, 2020. **Awarded ETH Medal and Willi Studer Prize for the Best Master’s Degree.**
- [M2] Camill Trueeb, “An End-to-End Approach to Multi-Camera Tactile Sensing,” *ETH Zurich*, 2019. **ETEL Master Award Winner.**
- [M3] Yipai Du, “Learning Dynamical Features for Vision-based Tactile Sensors,” *ETH Zurich (exchange student from KTH Stockholm)*, 2019.
- [M4] Benita Nortmann, “A State-Dependent Approach to Learning-Based Model Predictive Control,” *ETH Zurich (exchange student from Imperial College London)*, 2019.

Master Semester Project (semester-long research project)

- [S1] Peter Werner, “Trajectory Generation for Tactile-Enabled Robotic Manipulation,” *ETH Zurich*, 2021.
- [S2] Thomas Bi, “Generation of Optical Flow from Finite Element Simulations: Applications to Tactile Sensing,” *ETH Zurich*, 2020.
- [S3] Camill Trueeb, “Automated FEA Simulations to Provide Ground Truth for Tactile Sensing,” *ETH Zurich*, 2018.
- [S4] Laura Maria Gasser, “Feature Engineering for an Optical Tactile Sensor,” *ETH Zurich*, 2018.
- [S5] Zhejun Zhang, “Improving the Trajectory Tracking of a Parametrized MPC Approach,” *ETH Zurich (jointly supervised with Michael Muehlebach)*, 2017.

B.Sc. Thesis (three-month, full-time research project)

- [B1] Peter Werner, “Time of Flight and Camera Based Sensing for an Air-Driven Linear Soft Actuator,” *ETH Zurich (jointly supervised with Matthias Hofer)*, 2019. **Awarded SGA (Swiss Society for Automatic Control) prize.**

Professional Activities

- 2020 **Scientific staff representative in the Faculty Selection Committee at ETH Zurich**
For an Assistant Professor position in the Department of Mechanical and Process Engineering and the Department of Civil, Environmental and Geomatic Engineering.
- 2019 **Session Chair at IEEE/RSJ IROS**
For the session “Force and Tactile Sensing”.
- 2017- **Journal Paper Reviews**
IEEE Robotics and Automation Letters (RA-L)
Scientific Reports (Sci. Rep.)
Sensors

Journal of Guidance, Control, and Dynamics
Bioinspiration & Biomimetics
IEEE Transactions on Cognitive and Developmental Systems

2017-

Conference Paper Reviews

IEEE International Conference on Robotics and Automation (ICRA)
IEEE/RSJ International Conference on Intelligent Robots and Systems (IROS)
IEEE Conference on Decision and Control (CDC)
Learning for Dynamics & Control Conference (L4DC)
IFAC World Congress

Additional Experience and Education

2020

ETH transfer and European Patent Academy, ETH Zurich, Switzerland

“Workshop on Intellectual Property Rights.” Two-day intensive course.

2016

GE (ex-Alstom) Inspection Robotics, Switzerland

Six-month internship as Navigation Software Developer. Developing and testing navigation and control software for inspection robots.

2014

Athens Programme, Technical University Munich, Germany

“Manipulation of time series in time and frequency spectrum.” One-week intensive course.
